NOTES

GENERAL:
• This crochet pattern is written in US terms (more details).
• All measurements given are unblocked.
• Note that measurements are given as exact as possible. But crochet tension & technique might give variations in the result, that change from person to person.

BEFORE YOU BEGIN:
• Read pattern instructions carefully before beginning to make sure you understand everything. It might save you hours!
• Make a swatch that measures at least 10 x 10 cm / 4 x 4 inches using the stitch the gauge is given for. If your swatch matches the gauge, you’re good to go. If the gauge is wrong, you might need to change your hook. Go up in crochet hook size if your stitches are smaller & go down in crochet hook size if your stitches are bigger (more details).
• Check yarn info if you want to find an alternative or test your yarn against the gauge.

KNOW WHILE YOU CROCHET:
• This pattern is written for 9 sizes, where the different sizes is given in parenthesis like this: XS (S) M (L) XL (2XL) 3XL (4XL) 5XL. If just one number is given, it applies to all sizes. I recommend that you highlight or circle the size you’re making before you begin to make the pattern easier to follow. Size adjustments are added under ”Size & Measurements”.
• At the end of each row, the stitch count is given in parenthesis.
• Slip stitch counts as 1 stitch on the arms.

Step 2: Insert hook into 2nd ch from hook, pull up a loop. Yo and pull through first loop (making “chain”). Yo and pull through both loops on hook.
